The SURGEON-GENERAL,
Through the Chief Quarantine Officer.

PORTO RICO.

Case of yellow fever taken from steamship Montgomery dies.

SAN JUAN, P. R., *November 4, 1902*

SIR: Referring to my letter of the 28th ultimo and to my cablegram dated the 29th ultimo, in reference to a case of yellow fever which was removed from the U. S. S. *Montgomery* for quarantine and treatment at the quarantine station on Miraflores Island, I have the honor to further report in this connection that the case died on October 29, 1902, and the remains were buried in quicklime on the reservation on the night of that date.

The ship and effects of the crew were disinfected with sulphur, bichloride, and steam, and I am pleased to report that no other cases have up to this date developed among the ships' crew or the station force.

Respectfully,

H. S. MATHEWSON,
Passed Assistant Surgeon,
Chief Quarantine Officer for Porto Rico.

The SURGEON-GENERAL.
